

## Cooperstown Environmental LLC Expands Consulting Team

*Sean Foster, P.E. and Stacey Queripel Join Firm*

---

November 11, 2010

*For Immediate Release*

**ANDOVER, MA** – Cooperstown Environmental is pleased to announce that **Sean B. Foster, P.E.**, has joined the company as Project Engineer. Sean is a Massachusetts Registered Professional Engineer and graduated *cum laude* with a Bachelor of Science in Civil Engineering from the University of Massachusetts at Amherst. In addition, he has earned LEED-AP status from the Green Building Certification Institute (GBCI).

Sean has more than five years of experience in environmental consulting performing a variety of engineering assignments including work on Massachusetts Contingency Plan (MCP) projects and site design activities including site layout, grading, utility layout, stormwater management, and UST compliance.

Sean will work with Cooperstown's staff to assist with public construction and engineering projects as well as work in the private sector on environmental remediation projects.

**Stacey Queripel** also joined Cooperstown Environmental LLC as a Staff Engineer to assist with a variety of field tasks related to the firm's MCP and other engineering projects. She previously worked in environmental consulting conducting foundation design analyses, working in a materials testing laboratory, and performing computer modeling with a large Boston-based consulting firm. She has also worked as a municipal Environmental Health agent for a Boston-area town. Stacey received a Bachelor of Science degree in Civil Engineering Technology from Wentworth Institute of Technology in Boston.

### About Cooperstown Environmental LLC

**Cooperstown Environmental LLC** is an environmental engineering consulting firm based in Andover, Massachusetts that provides high-quality, practical, and cost-effective engineering and environmental consulting services to businesses, property owners, institutions, government agencies, and the legal community. We also have a niche as the leading experts in the Brownfields Tax Credit program. The program began in 1998 as part of an effort to encourage and provide an incentive for the cleanup of contaminated sites, sometimes known as Brownfield sites.
